The Late Dr. Mutter. Dr. Mutter was born in Richmond, Virginis in April, 1811, and was descended from a family of Scotch extraction, though originally coming from Germany, having settled in val in Wythe County, some of the "leaders" Scotland; near Glasgow, soon after the revocation of the edict of Nantes.

He commenced his medical education in

Alexandria, Virginia, and graduated at the I niversity of Pennsylvania, having been the student of the venerable Prof. Jackson, who survives his gifted and lamented friend .-He afterwards went abroad, and visited Pars, where, during a long residence, he pursued his studies with characteristic zeal, under the direction of the celebrated Dupuytren, of whom, we believe, he was a private pupil.—
He returned to this country and settled in Philadelphia, where he soon rose to a lucrative practice, although surrounded with zealas competitors, whose names are now the pride of the medical schools of Philadelphia. 1840 or 1041 he was, about the age of twenty-nine, appointed Professor of Surgery in the Jefferson Medical College, which institution he assisted so much in raising to its present proud position. During the sixteen ears of his connexion with the school he labored indefatigably to make his lectures practical and instructive. His rare powers of delivery, his clear sonorous voice, his luced finished style, his polished gentlemanly man-ners, made them delightful. The general voice has pronounced him unrivalled as a teacher of the principles of surgery; few could equal him as a practical, skilful operator.—
Kind and affable, and yet dignified in his manners, he made the bosom of the poorest, most humble, most friendless student who approached him glow with a feeling of love for the man, of respect and veneration for the

Stocks closed dull and heavy. Cumberland Coal Co. 234. Mo 6's 854.

The Government balance in the Sub-treasury as New York, on Saturday, was \$9,132,757, an increase of \$553,974 as compared with the close of the previous week, and the specie export of the week amounted to \$870,000. There was considerable reduction in amount of foreign dry goods thrown into the market as compared with the two or three preceding weeks. The amount was \$788,-921, which is an increase, however, of \$246,555 on the corresponding week of the previous year. The considerable decrease in the specie line.

The foreign news at hand by the Asia is of the same conflicting and perplexing character. The details of the position of things on the Continent do not favor the expectation of a peaceful solution of the difficulty, though the buoyancy in the English and French funds would seem to show that the agitation of the public mind had somewhat abated.

On the first impulse, the foreign news was construed at New York on Saturday, in favor of the stock market, and on the opening 1 @ 1 advance was established on most descriptions, but at the close the feeling was weak and the improvement, for the

Correction.-In giving in the article on the trade of our port, yesterday, the estimated number f corn which the receipts of this year would fall short of those of the last year, the types made us say 200,000 instead of 400,000.—Norfolk

Buffalo in 1858 is shown to have received 4,918, 494 bushels of grain more than Chicago, and 12,-947,486 bushels more than the receipts at St. Louis and Cincinnati combined.

## BY YESTERDAY EVENING'S MAILS.

"A Muss."-The Richmond Whig says. it learns that previous to Mr. Goggin's arriof the Democratic party there "made threats to the effect that if Goggin should allude to the Ruffner pamphlet in the course of the discussion, that they (the leaders referred to) would make it a personal matter with him! Mr. Goggin opened the debate, and did allude to the Ruffner pamphlet and Letcher's connection with it, in the same courteous and pointed manner in which he had alluded to to them both in all the previous discussions. The moment he did so, the ring-leader of the conspiracy, to insult and intimidate Mr. Goggin, sprang to his feet and declared that if Mr. Letcher would not make a personal matter of Goggin's allusions to the Ruffner pamphlet, he would !! And thereupon arose a scene, gotten up by these leaders of Wythe, such as has never before disgraced the venerated soil of proud and free Virginia. For many minutes-fifteen or twenty, perhaps-there was a general and unprecedented confusion and disorder, during which the discussion of course was entirely suspended. Thus for the first time has the gag been attempted to be applied to a public speaker in the Commonwealth of Virginia, and that speaker himself a native to the manor born, and as courteous, as honorable, and as high-minded a gentleman as walks the earth. The first time, we repeat, and for the sake of the reputation and good name of the State, God grant it may be the last. The effect of this unpecedented outrage upon Mr. Goggin was exactly what might have been expected. He proceeded with his speech in his usual gentlemanly styly, pour-

port. The leaders alluded to were confoun-ded." down train on the Norfolk road Saturday was brought up all standing about a balf a mile this side of Suffolk, by the total disappearance of the track for some hundred yards, under a land slide. We understand that the embankment had beed literally washed into a millpond, near which it stood, by the recent heavy rains. We understand that the loss will not be very great, and the damage will cause no further detention, as the most active steps have been taken to restore the track .- Petersburg Press.

### COMMUNICATED.

Railroad Freights. Extract of a letter from a gentleman in

Charlottesville, dated 19th inst: "You were quite correct in your recollections of what I stated about the price of wood and coal here now, and in 1857. In 1857, both anthracite and bituminous coal cost, at least, \$11 to \$12 the short ton. In Feb. 1858, I sent to Richmond for 2 hhds, anthracite coal, which contained together, perhap, a bushels, or two beyond a ton, and by the time it reach-1858. I united with a large company, who got together several hundred tons, brought up in open flat cars in the dull season, we taking the risk of getting it divided correctly among ourselves, and in this way I got ten tons of 2,000 lbs., at \$8.75, which was the cheapest coal ever bought here. It can be had now, under the same condition, and risks, at

If you you deliver coal here at from \$6.50 to \$7 per ton, you can sweep the market, and sell, I should say, 20,000 tons."

The Piedmont Debating Club is in a flourishing condition, and had an accession of several talented gentlemen at its last meeting. The next subject for discussion is an interesting one, and the debate will probably be well attended.

Fauquier County, March 19. Zer Mr. WM. BAYNE .- Dear Sir: In making

notations you should always give them with accuracy. No writer in the Southern Churchman has ever charged Baptists with holding principles tionsness, and murder." And you ought not to say so. What was said by "Jerome," from whom you quote, was, that Baptist negroes generally be-lieved no condemnation could ever come upon them for any crime, provided they are baptised by immersion. Now, he says, "the consequence this belief is, they think they can lie, steal, be LAND SLIDE ON THE NORFOLK ROAD .- The licentions, &c." This affirmation no person will disagree with. You say the Editor of the Southern Churchman

in his paper. Before assenting, let us see how the will work. The Baptist Churches of the South have organized a Publication Society in Charleston, S. C. They have gone to a good deal of expense in this, and now issue books and tracts. for the truth of which the Baptist Churches in the South are responsible. This Society has published a book called the "Evils of Infant Baptism." The book thus endorsed, says of Infant Baptism: it is "a revolting evil," and a "horrible abomination." that it makes a minister occupy a position "revolt-ing and abhorrent;" that it is "a sin against God;" that if any one is a Pedo-Baptist, "to be consistent he must be a papist;" that it is "rebellion against the authority of Christ," and its min-iters "rebels;" that he who defends Infact Baptism, defends union of Church and State;" that "it leads o religious persecution;" that such a Church will inecitably be a persecuting Church;" that "it des troys civil and religious treedom;" and, finally, "that it is the most pernicious heresy which ha ever found its way in the Church." Now, your Publication Society is either bound to withdraw these charges, or to publish a book, at its cost, written by us, defending ourselves. When your Publication Society will allow this, then you shall have the columns of the Southern Churchman.

Can any thing be fairer than this? You say you do not intend that the Editor shall hide the Episcopal Church under a multitude: that your business is with the Episcopal Church, This might be so. Did you not attack all other Protestant Churches in attacking it? You say you will show Baptism is our salvation. But this is only what you say of all Protestant Churches. On page 125 of "Evils of Infant Baptism," it is said, when any Protestant denomination wants to ad-minister or defend Infant Baptism, "Baptism and regeneration are declared essentially identical are some amongst us who do hold it with the consequences to which you have referred. Hence, such persons, desirous of being consistent, never mix with other Protestants; and if they hold such very thing. The book says Infant Baptism blots out every thing of the Church: (page 138) "If there is no other than a Pedo Baptist Church, then there is no true visible Church of Christ apon earth.

conservative influences now existing in the I ni-cerse. It is ours to save Pedo-Baptists themselves . . from the consequences of their own error. If we lo not save them, they must sink." This mission. Although discharged by the Boston author-ities, the individual who sold the forged check sublime. We do not doubt it; and "if you do not save us we must sink." Well may we stand aghast at such presumption. But with consistency, the book from which we quote (page 284) tells us, "Christian union and Infant Baptism never can exist together. Between the millions of Baptists and Pedo Baptists, this rite interposes a barrier which is, and must forever remain, impossible, This, with such views as the book teacher sistent. And if this be the opinion of our Baptist friends, they do right to absent themselves from Christian Association, and from all the other great and blessed works which Christian brethren of various denominations are endeavoring to do for their Master. But these cannot be the feelings of all our Baptist brethren. We know too many good and earnest men in this Church; too many who are patterns in all that is good. We have Zer Messrs. SMITH, SHACKELFORD, and known too many who have finished their course pared to believe these are the opinions of all.

> are all called. One word to Mr. Bayne, in conclusion. The Editor of the Southern Churchman now takes leave of you in this public controversy. It is not pleasant to him. Be assured, if the Editor has said one said, he apologizes, and begs you to consider it withdrawn. To you, personally, he can entertain none but the kindest feelings; which are hereby tendered to you, and to all those who love Our Lord Jesus Christ, in sincerity. mh 22-11\*

STEAM CANAL BOAT,-As the subject of Steam on Canals is at present occupying a large share of public attention, it may not be uninteresting to our readers to know that a Canal boat fitted with a new wheel, the invention of Mr. A. H. Brown, has just left this place, on a trial trip to Cumberland, which, to all appearances, will be a most decided success, as far as the wheel is concerned, ed my house the cost was \$16.75. In July, although the machinery not being adapted to driving the wheel to the best advantage. and not being in perfect order, a just trial of speed can not be expected.

The wheel is about five feet in diameter, and seven feet long, with floats or paddles made of boiler plate iron, working upon a journal at each end, one end havis about the same price; and yet, at this ing a crank working in a guide wheel, which price, it is very considerably cheaper than wheel is governed by an eccentric, so arranged that the dip and angle of the buckets is controlled so as to give each bucket a perpendicular dip, and horizontal thrust of about one-fifth of its circumference, leaving the water in the same vertical position, with which it entered; or in other words maintaining at all points a perpendicular position of the buckets, thus making a quiet entrance and exit from the water, and produeing no swell or commotion, except directly astern of the boat.

The wheel is also arranged to be lowered, or raised, as the empty or loaded condition of the boat may require, so that the which "necessarily lead to lying, stealing, licen- same dip or immersion of the buckets may be maintained at all times, making merely

CANAL BOATS FROM CUMBERLAND.—Five canal boats from Cumberland arrived here on Sunday, and others on yesterday, with coal to the several Coal Companies. The cais bound to withdraw the charges made against Baptists, or clse allow them to defend themselves out, and a cond season may be anticipated The National Intelligencer of yesterday says :-- "The Chesapeake and Ohio Canal has resumed its annual work for 1859. A first little fleet of five coal boats have arrived down from Cumberland to Georgetown during the past week, and having been promptly discharged as promptly returned up stream. We hear there is another large batch of boats not far distant from tide water with full loads of coal from Cumberland. All reports of the canal and the trade are favor-

CLERICAL.-The Rev. John Roberts, pastor of the Methodist Protestant Church of this place, closed his term of service to that congregation on Sunday night last, by an listened to with profound attention by a large and deeply interested audience. Mr. Roberts has labored in our midst for the last two years (being the limit prescribed by his church) and by his exemplary walk, has secured the confidence and esteem not only of the members of his charge-but of our citizens of all denomination, and he will carry with him to his new field of labor, the best wishes of those who had the pleasure to make his acquaintance during his stay in E. Turpin was on the 16th inst brought bebefore the Superior Court for final decision.
The prisoner was acquitted.

es," as narrated in the seventh chapter of tractions to any previous number. Revelation will constitute the subject of Dr. Elias Harrison's Lecture this evening, before

blow on the earth, nor on the sea, nor on any tree. "And I saw another angel ascending from the east, having the seal of the living God, and he cried with a loud voice to the four angels, to whom was given to hurt the earth and the sea-say ing hurt not the earth, neither the sea, nor the trees, till we have scaled the servants of our God in their foreheads-And I heard the number of them which were sealed, and there were sealed an huncred and forty and four thousand of all the tribes of the children of Israel. After this I beheld, and lo, a great multitude which no man could number, of all nations and kindreds and people, and tongues. stood before the throne and before the Lamb, clothed with white robes, and palms in their hands, and in the Convention, relative to the Marshall House eried with a loud voice, saying, Salvation to our God, which sitteth upon the throne and unto the Lamb.

The increased attendance upon the delivery of these Lectures on the part of our citizens generally-is an indication of their appreciation, and as the subject selected for this evening, is deeply interesting—a large audience will, no doubt, be present.

THE UNION PRAYER MEETING .- The attendance at the Union Prayer Meeting, held word which he ought not, as a Christian, to have in the 2d Presbyterian Church, on Sabbath afternoon, was unusually large, making it difficult to find seats for the audience. The Rev. Mr. Littell, of the Methodist Episcopal Church, conducted the exercises which were s demn and impressive. Remarks were made by the Rev. Mr. Noble, of Washington City, Wm. II. Fowle, and others. We are City, Wm. II. Fowle, and others. We are glad to hear that these meetings are so well King, between Alfred and Patrick streets. This sustained, and as they are likely to become an "institution" in our midst, great good will throughout, and is now, in every respect, a most no doubt be effected by them.

MEETING .- The boys attached to St. Mary's Sunday School in this city, held a meeting on the 20th inst., in St. Mary's Hall, and adopted an address to the Catholic pupils of the Eliot School, Boston, complimenting them upon the stand they took recently in refusing to use forms of prayer &c. in any other than their own approved version. Clarence B. Gwynn, presided, and ter the address had been signed by all present, a committee was appointed to record some suitable testimonial for presentation to for sale by Thomas Ward, the lad who was so severely punished in consequence of his refusal to unite in the exercises.

GETTING A LOCONOTIVE ON THE TRACK .--

North Water Street presented quite an animated appearance on Saturday, crowds of boys and a large number of men being there to watch the progress made in getting the first locomotive on the track of the Alexandria, Loudoun and Hampshire Railroad .-The streets being very muddy, the progress of those engaged in the work was necessarily slow, and it was not until five o'clock. that the engine was placed upon the turn table. This table is of a sort recently invented and patented by Mr. W. H. Ward of Auburn, New York. Its peculiarity is the use of a set of hollow cannon-shot, of twelve gress meets in December next. inches diameter, placed in a groved circular track of iron about ten feet in diameter. Upon these is placed the frame work of the table, without any centre bearing, or pivot, and turns with great ease, as hundreds of boys who have been revolving upon it for several weeks past can testify. A locomotive and tender can be turned with ease in half a minute and an entire revolution made in a minute, though the weight of the table is over twenty tons, being greater, we are informed than any on the New York Central Road. The iron work is by Mr. Thomas S. Jamieson of our city, the timber by the contractor for the road, and it is so constructed. It is stated that the Camanches number upthat it can be renewed, and made ready for wards of 3,000 warriors, and another battle use without delay in operating.

The new locomotive thus housed, is a splendid piece of wokmanship, and was made by Wm. Mason, Taunton, Mass. It s appropriately named "Lewis McKenzie, after the energetic President of the Company, than whom no man better deserves to be thus complimented for the untiring energy he has exhibited in pushing forward the work so successfully.

FIRE.-A frame stable in the rear of the dwelling house occupied by Mr. Wm. A. Hart, on the corner of St. Asaph and Wolfe streets, was set fire to and entirely destroyed at San Francisco was quiet. on Sunday night about eight o'clock. There was a valuable cow in the stable, which barely escaped being burned. The stable was owned by George Seaton, and was not

FIRE LAST NIGHT .- Last night about eight o'clock, the frame stable back of and connected with the dwelling of Mr. Samuel Barnes, on Wolfe, near St. Asaph street, and owned by him, was found to be on fire. ever offered in this market, to which we invite the The wind being from the south the fire attention of the trade generally. We name in part: and owned by him, was found to be on fire. caught to a frame house across the alley on the west, occupied as a dwelling by Wm. appropriate and feeling discourse, which was Beckley, and belonging to the estate of Mrs. Gardiner, which was consumed. The furniture was mostly saved. The stable was 50 hhds. Porto Rico, Muscovado, and E. Island undoubtedly fired by an incendiary.
